THE TRUTH BEHIND OSAMA BIN LADEN S DEATH

Createspace, United States, 2015. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.The demise of Osama Bin Laden has been shrouded in secrecy and controversy since it was announced by members of the United States government. There have been many conspiracy theories arising, hoaxes claimed and rumors circulated around the time of the alleged incident and even today. Some of these ideas include the notion that Bin Laden has been deceased for years or that he could still in fact be alive. The doubts and questions arose around the time the U.S. released the memo that he had been killed during a raid on his location. The rumors were fuelled primarily based the US government s theory that the body was later disposed of. They have subsequently also refused to release to the public any photographic or DNA evidence to irrefutably support their claim. There was a lot of debate surrounding whether images of him should be released and around this time many hoaxes and fake images were circulated around the internet.
