Excerpt: .time between each to avoid cracking. Place 1 loopful of water on the cover slip. Spread by pulling and do it gently. Care at this point is highly essential. The end of the platinum wire may be used for this purpose. First fix with gentle heat and then apply the mordant (Loeffler s Flagella Stain) which should be filtered on to the cover slip until completely flooded and heat until steam arises (use care not to overheat). Hold the cover slip with cornet forceps and keep the finger extended over it when passing through the flame. Heat-minute. Wash in water and blot with filter paper. Stain with the carbolfuchsin, taking care to completely flood the cover slip so that no material will be precipitated out during the 3 minutes heating. Wash and examine. Mount in balsam if a satisfactory stain is obtained. Keep accurate...
