THE PHYSICAL CONFIGURATION OF THE AUSTRALIAN CONTINENT (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Physical Configuration of the Australian Continent It may sound paradoxical to say so, but forty or fifty years ago, the average Australian knew more about the then settled portions of his continent than he does at present, when so much more is settled and the facilities for interchange of communication are enormously greater. But men travelled then, and the nature of their surroundings was such, that they were compelled to notice and remember the country through which they passed, or in which they resided. They travel now, travel much more in fact, but it is from city to city, from town to town, from one populous centre to another, whirled along without any necessity to closely inspect the country they are passing over. And a further paradox; many men travel less than before, although the means of transit are now so varied and abundant; but then the rambling, roving spirit is dying out with the growth of generations. Men now become rooted in their homes, the country districts in which they have grown up, and the towns they have watched rise, and helped to develop. To counteract this, the wide teaching of Australian topography, the simple knowledge of the surface and contour of our continent, is at last within our grasp, thanks to the spread of settlement and survey. Our knowledge is still lacking much in detail, but, taking the continent right through, we are now for the first time in possession of sufficient facts to build up a base for a future edifice. This is due to the work of the different survey departments all over Australia, and the extension of their fields...
