Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Michael Spinka)

Mining and Metallurgical Society of America Vol. XIV, No. 6 August 31, 1921 Bull. 149 REPORT OF COMMITTEE ON VOCATIONAL OR OCCUPATIONAL TRAINING FOR METAL MINERS LETTER OF TRANSMITTAL. The Committee on Vocational or Occupational Training for Metal Miners, consisting of Chas. A. Mitke (Chairman). Stanly A. Easton and B. F. Tillson, was originally appointed by the Mining and Metallurgical Society of America in the spring of 1919, to investigate the subject indicated by its title, with the ultimate object in view of preparing a series of courses dealing with subjects necessary for the education of employees, in order to fit the practical man for the job. Considerable time and thought was first given to a study of the systems at present in use in large mining camps and factories in the United States and elsewhere in order to become thoroughly familiar both with the character of education afforded and the results obtained, before making any further recommendations. Inasmuch as the Federal Board for Vocational Education, in its Bulletin No. 38, entitled General Mining has described at length many of the vocational schools now in existence, both in this country and in Europe, it was found that a duplication of this part of the work was unnecessary, and the efforts of your committee have, therefore, been directed principally towards meeting the present needs of the industry by working out carefully graded courses, ranging from the most elementary courses for foreign-born employees, to practical and technical...
