

## National Survey of Fishing, Hunting, and Wildlife-Associated Recreation (Fish Stories)

Filesize: 7.31 MB

### ***Reviews***

*This pdf will not be simple to start on reading through but extremely enjoyable to see. I have read and i also am sure that i will planning to read through again once more in the foreseeable future. You wont really feel monotony at whenever you want of the time (that's what catalogues are for relating to if you request me).*

Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The 2011 Survey revealed that over 90 million U.S. residents 16 years old and older participated in wildlife-related recreation. During that year, 33.1 million people fished, 13.7 million hunted, and 71.8 million participated in at least one type of wildlife-watching activity including observing, feeding, or photographing fish and other wildlife in the United States. The focus of the National Survey is to estimate participation and expenditures of persons 16 years old and older in a single year. These estimates are based on data collected in the detailed phase of the 2011 Survey. They are comparable to the estimates of the 1991, 1996, 2001, and 2006 Surveys but not to earlier Surveys because of changes in methodology. A complete explanation is in Appendix C. While the focus of the Survey is to estimate wildlife-related recreationists 16 years and older and their associated expenditures in a single year, information collected in the Survey screen can be used to estimate the number of anglers and hunters who were active over a five-year window of time. Because many do not participate every year, the following estimates may be more representative of the number of individuals considered to be anglers and hunters in the United States: 49.5 million individuals fished and 19.7 million hunted over the five-year period from 2007 to 2011. The Survey screen also provides some information about 6- to 15-year olds participation which was calculated by using data from the Survey screen. Assuming their proportions of participation were the same in 2011 as in 2010, the following estimates were calculated: Of the 6- to 15-year-olds in the U.S., 1.8 million hunted, 8.5 million fished, and 11.7 million...
