The basic aim of the Basel Accords is to gear banks' capital requirements more closely than in the past to the actual economic risk, which should improve security and soundness of the financial system. Thus an accord becomes operative, which had its beginning in the year 1988 with the publication of the Basel Accord (Basel I). The BCBS is retaining key elements of the capital adequacy framework (1988), but the revised framework gives greater consideration of assessments of risk provided by banks' internal systems as input to capital calculations.
